

HODGDON YACHT SERVICES IS NOW A FULLY AUTHORIZED YAMAHA DEALER

Southport, Maine (December 14, 2016) - [Hodgdon Yacht Services](#) is pleased to announce that they are now a fully authorized [Yamaha outboard](#) dealer. The company has been an authorized Yamaha Service Center for 29 years and is now certified to sell the full line of engines. To celebrate this new dealership, special pricing and deals will be offered on the entire line, which ranges from 2.5 to 350 HP.

The Yamaha brand is dedicated to pushing outboard technology and creating a better boating experience. Their innovations lower ownership and operational costs, increase reliability, fuel efficiency, and ease of boating - offering more uninterrupted hours on the water.

Yamaha has been recognized with the National Marine Manufacturers Association [Customer Satisfaction Index Award](#) for excellence in customer satisfaction in the Outboard Engine category. The award has been presented fifteen consecutive times to Yamaha.

Earlier in 2016, Hodgdon Yacht Services became an [authorized Suzuki dealer](#). The line from Suzuki ranges from 2.5 to 300 HP, with fuel injection starting at 9.9 HP. Their products have proven to be innovative, practical, and cost-effective and customers are happy with their offerings, service, support, and warranty.

"Our Outboard Service Manager, Nate Hopkins and team of technicians provide excellent service, are experienced with repowers, and have comprehensive product knowledge," said Audrey Hodgdon, Director of Sales & Marketing. "We're excited to offer more to our customers with the addition of these two great product lines."
